40% Urea solution for NOx reduction of heavy duty diesel engines with Selective Catalytic Reduction (SCR) systems and scrubbers

DESCRIPTION

Caretreat Urea 40 is a compatible, liquid, 40% urea solution for Marine and Industrial diesel engines equipped with SCR systems. It supports the NOx reduction process in exhaust gases. The product can also be used in scrubber systems.

ADVANTAGE

The composition of Caretreat Urea 40 is compatible with all types SCR systems and scrubbers. This means easy and reliable switch over and continuity in performance. Caretreat Urea 40 shelf life can be determined by taking the production date, below storage conditions and the table temperature table on the right. If you cannot retrieve the production date from the packaging, please consult Marine Care.

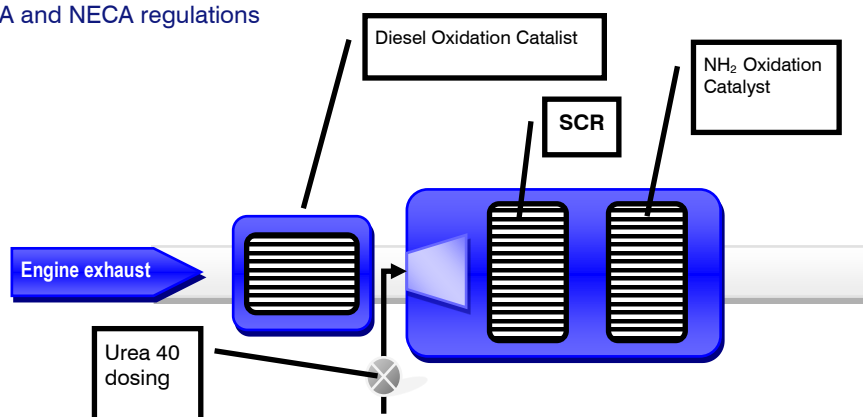

APPLICATIONS / DIRECTIONS FOR USE

Dose Caretreat Urea 40 as prescribed by the supplier of your SCR or scrubber system.
