

CARETECH APPLICATION KIT SU

The straight forward solution for single user hold cleaning and barrier coating applications

- Robust single user pump
- Light weight, high reach spray lance
- Compatible with all Careclean hold cleaning products

Being global leaders in tank and hold cleaning applications, we know time is always short when you need to clean before the next cargo. Especially for spray cleaning and application of barrier coatings, Marine Care has developed the Caretech Application Kit SU (Single User). It consists out of a robust steel frame holding an air driven ARO double diaphragm pump with quick connections and a light weight telescopic spraying lance to reach heights up to 15 meter. All required hoses and connections are supplied in the kit to ensure your crew has a “plug & play” solution. A support belt for ergonomic support is included.

Caretech Holdpump SU with heavy duty industrial ARO pump

Caretech Telescopic Sprayer 2,7 - 8 Meter length

Caretech nozzle set with 2 flat spray and 1 foaming nozzle

MARINE CARE

MAIN SPECIFICATIONS APPLICATION KIT SU

Model / Type	CARETECH APPLICATION PUMP SU
Operation	Air driven, double diaphragm
Operating Pressure	Min. 8 bar
Chemical flow	12—15 L/min.
In/Outlet hose & coupling size	1" PVC quick coupling
Air hose ball valve connection	1/4" SST
Noise Level	62 dB
Dimensions	L200 x W400 x H450 mm

Model	CARETECH TELESCOPIC SPRAYER 8M
Operating Pressure	Max 300 bar
Water flow (maximum)	18 L/min.
Inlet hose & coupling size	1" quick coupling
Dimensions	270 - 800 cm
Weight	3.9 kg

Available Caretech hold cleaning chemicals:

Careclean Bulk HC-P	Strong alkaline cleaner, Potassium Hydroxide
Careclean Bulk HC-S	Strong alkaline cleaner, Sodium Hydroxide
Careclean Bulk RR	Strong acidic cleaner for rust removal
Careclean Bulk CR	Strong acidic cleaner for cement removal
Careclean Alkaline	Strong alkaline cleaner, Potassium Hydroxide
Careclean Alkaline Extra	Strong alkaline cleaner, Sodium Hydroxide
Careclean Rust	Strong acidic cleaner for rust removal
Careclean Multiclean	Neutral general purpose cleaner
Carechlor	Strong chlorinated cleaner
Carecoat Barrier	Barrier coating for holds, ready to use, water resistant
Carecoat Holdguard	Barrier coating for holds, ready to use, water soluble

As long as the application kit (pump and hoses) are thoroughly rinsed with water after every use, all types of alkaline and acidic cleaners can be used. Use of (eco)solvent cleaners in the hoses and pump are not recommended as they will damage inner hoses and seals.

Visit [our website](#) to see technical product information on these products.

Standard supplied with:

- Chemical resistant pump 1"
- Air inlet hose 25 meter
- Chemical suction hose 10 meter
- Chemical delivery hose 50 meter
- Quick connectors for air, suction and discharge hoses
- Telescopic spray lance 8 meter + 3 nozzles
- Support belt

Nylon robust support belt

Stainless steel quick connectors and steel guarded hoses for suction and delivery
