# CARECLEAN STAINLESS GEL

**Highly effective acidic ready to use cleaner and corrosion remover for stainless steel surfaces for spray, brush and sponge application**

- Excellent cleaning and corrosion removal
- Bright and shiny result
- Ready to use gel, suitable for vertical surfaces

## DESCRIPTION

Careclean Stainless Gel is an acidic cleaner that is highly effective in removal of stains and corrosion from stainless steel surfaces. Due to its high viscosity the gel reaches the required contact time also on vertical surfaces. It removes corrosion stains without the need for abrasive force.

## ADVANTAGE

- Removes all grease and corrosion stains without abrasive force
- Brightens surface and brings back shine
- Ready to use solution, economical in use

## APPLICATION

- Especially for stainless steel in high chloride environments such as open sea and coastal areas > (cruise) ships, coastal architecture

## DIRECTIONS FOR USE

- Remove loose soil from surface
- Apply thin layer of Careclean Stainless Gel with sprayer, brush or sponge
- Allow to work for 20 - 45 mins (or longer when temperature is below 10 °C)
- Rinse surface well with fresh water (until pH neutral)
- Dry surface with cloth and immediately treat with Careclean Stainless Protect for long lasting protection

## PROPERTIES

pH	< 1
Density	1,1 g/cm <sup>3</sup>
Flashpoint	none
Physical state	Fluid gel
